Professional Summary

Full Stack Developer with strong expertise in **Angular**, **React.js**, and **Node.js**. Experienced in building dynamic, responsive frontend applications and robust backend APIs. Passionate about crafting seamless user experiences, improving performance, and working in collaborative Agile teams.

Technical Skills

- **Frontend:** Angular (v2–v19), RxJS/NgRx, React.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Bootstrap, Responsive Design
- **Backend:** Node.js, Express.js (RESTful APIs, Authentication & Middleware)
- **Database:** MongoDB (Schema Design, Aggregation, Indexing), Mongoose
- **Tools:** Git, GitHub, npm, Postman, VS Code, Linux

Professional Experience

BornWhiz Technologies — Associate Full Stack Developer
Chidambaram, India

Feb 2025 – Present

- Promoted to Full Stack Developer after successful internship and backend skill acquisition.
- Independently developed and maintained frontend in **Angular** and backend services in **Node.js/Express.js**.
- Implemented **REST APIs** and integrated with **MongoDB** for application features.
- Participated in architectural planning, code reviews, and Agile development ceremonies.

BornWhiz Technologies — Frontend Developer Intern
Chidambaram, India

Sep 2024 – Feb 2025

- Developed responsive and dynamic user interfaces using **Angular** and **Bootstrap**.
- Improved frontend performance and implemented reusable components.
- Trained in backend development with **Node.js**, **Express.js**, and **MongoDB**.
- Collaborated closely with senior developers to understand full stack workflows and project structure.

Projects

1. Portfolio Contact API — Node.js, Express.js, JavaScript

[Live Link](#)

Backend API using **Express.js** to handle portfolio form submissions. Validates data and sends emails via **Nodemailer** and Gmail SMTP. Configured CORS for secure frontend-backend interaction.

2. Expense Tracker Web App — React.js, JavaScript, CSS, HTML

[Live Link](#)

A responsive app to track daily expenses with persistent local storage and real-time updates for better budgeting.

3. Notes Web App — React.js, Bootstrap, JavaScript, HTML, CSS

[Live Link](#)

Simple and clean note-taking app that uses React state for dynamic behavior and Bootstrap for layout styling.
