Professional Summary

Full Stack Developer with **1+ years of hands-on experience** in building scalable web applications using **Angular**, **React.js**, **Node.js**, and **MongoDB**. Skilled in developing REST APIs, responsive UI, and delivering end-to-end features in Agile environments. Proven ability to improve application performance and collaborate across teams to deliver impactful solutions.

Technical Skills

– **Frontend:** Angular (v2–v20), RxJS/NgRx, React.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Bootstrap, Responsive Design

– **Backend:** Node.js, Express.js (RESTful APIs, Authentication & Middleware)

– **Database:** MongoDB (Schema Design, Aggregation, Indexing), Mongoose

– **Tools:** Git, GitHub, npm, Postman, VS Code, Linux

Professional Experience

BornWhiz Technologies — *Associate Full Stack Developer*   **Feb 2025 – Present**
Chidambaram, India

– Promoted to Full Stack Developer after excelling during internship and mastering backend technologies.

– Integrated **100+ REST APIs**, created **10+ new APIs**, and resolved **100+ API-related issues**, ensuring smooth communication between frontend and backend systems.

– Collaborated in Agile ceremonies, conducted code reviews, and contributed to architectural planning.

BornWhiz Technologies — *Frontend Developer Intern*   **Sep 2024 – Feb 2025**
Chidambaram, India

– Built responsive and dynamic UIs using Angular and Bootstrap, enhancing user engagement by **25%**.

– Integrated **50+ REST APIs** while simultaneously training in Node.js, Express.js, and MongoDB.

– Collaborated with backend team and contributed to full stack workflows, preparing for transition into a full stack role.

Projects

Google Sheet API Integration — *Angular, TypeScript, SCSS, Google Sheets API*   Live Link
Built an interactive dashboard to fetch and display expense/contribution data from Google Sheets. Delivered features like summary cards and data tables with a fully responsive UI for real-time tracking.

Portfolio Contact API — *Node.js, Express.js, JavaScript*   Live Link
Developed backend API to handle portfolio form submissions with input validation and email delivery via Nodemailer. Secured integration with **CORS** for smooth frontend-backend communication.

Expense Tracker Web App — *React.js, JavaScript, CSS, HTML*   Live Link
Created a responsive expense tracking application with persistent local storage and real-time updates, enabling efficient personal budget management.
