Professional Summary

Full Stack Developer with **1+ year of hands-on experience** building and maintaining scalable web applications using **Angular, Node.js, Express.js, and MongoDB**. Experienced in owning end-to-end feature development, implementing secure authentication, and collaborating in startup environments. Demonstrated leadership by guiding a small development team and delivering production-ready solutions.

Technical Skills

- **Frontend:** Angular (v2–v20), RxJS, NgRx, React.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Bootstrap, Responsive Design
- **Backend:** Node.js, Express.js, RESTful API Development, JWT Authentication, Middleware
- **Database:** MongoDB, Mongoose
- **Architecture & Concepts:** MERN Stack, MEAN Stack, MVC Architecture, Client–Server Architecture
- **Tools & Platforms:** Git, GitHub, Postman, npm, VS Code, Linux

Professional Experience

BornWhiz Technologies — Associate Full Stack Developer
Chidambaram, India

Feb 2025 – Present

Project: The Learning Freak — Web Application

Angular, TypeScript, Node.js, Express.js, MongoDB

- Leading full stack development of an educational web platform, handling both frontend and backend responsibilities.
- Designed and developed responsive UI components using Angular and Bootstrap.
- Built and maintained RESTful APIs using Node.js and Express.js.
- Implemented **JWT-based authentication** with role-based access control (RBAC).
- Integrated frontend components with backend services ensuring secure and reliable data flow.
- Prevented memory leaks by properly managing subscriptions and intervals using Angular's `OnDestroy` life-cycle hook.
- Acted as team lead for a **4-member team**, assigning tasks, reviewing pull requests, resolving issues, and mentoring junior developers.
- Participated in Agile ceremonies, sprint planning, and technical discussions.

Project: The Learning Freak — Mobile Application

- Contributed to the mobile application using Flutter by integrating existing REST APIs developed for the web platform.
- Ensured functional consistency and data synchronization between web and mobile applications.
- Collaborated with team members to support feature implementation and testing.

BornWhiz Technologies — Frontend Developer Intern
Chidambaram, India

Sep 2024 – Feb 2025

- Worked on production-level frontend development in a startup environment.
- Developed responsive and reusable UI components using Angular, HTML, CSS, and Bootstrap.
- Integrated frontend components with REST APIs and handled UI-level error states.
- Collaborated closely with senior developers to understand application architecture and full stack workflows.

Personal Projects

Google Sheet API Integration — *Angular, TypeScript, Google Sheets API*

[Live Link](#)

Built an interactive Angular dashboard to visualize expense and contribution data fetched from Google Sheets, featuring summary cards, dynamic tables, and a fully responsive layout.

Portfolio Contact API — *Node.js, Express.js, MongoDB, Nodemailer*

[Live Link](#)

Developed a RESTful backend API to handle portfolio contact form submissions with input validation, CORS configuration, and automated email notifications.

Expense Tracker Web Application — *React.js, JavaScript, HTML, CSS*

[Live Link](#)

Created a responsive expense tracking application supporting income tracking, expense categorization, balance calculation, and persistent local storage.

Education

B.Sc. Computer Science

2021 – 2024

Shree Raghavendra Arts and Science College, Keezhamoongiladi
